ENVIRONMENTAL MONITORING AND ASSESSMENT

Volume 104 Nos. 1–3 May 2005

M.M. MAKHOLM and DAVID J. MLADENOFF / Efficacy of a Biomonitoring (Moss Bag) Technique for Determining Element Deposition Trends on a Mid-Range (375 km) Scale 1–18

J.F. LAVADO CONTADOR / Adaptive Management, Monitoring, and the Ecological Sustainability of a Thermal-Polluted Water Ecosystem: A Case in SW Spain 19–35

AZAD MOHAMMED / Toxicity of Water-Soluble Fractions of Four Fuels for *Metamysidopsis insularis*, An Indigenous Tropical Mysid Species 37–44

A. KHALIQUE, S. AHMAD, T. ANJUM, M. JAFFAR, MUNIR H. SHAH, N. SHAHEEN, SAADIA R. TARIQ and S. MANZOOR / A Comparative Study Based on Gender and Age Dependence of Selected Metals in Scalp Hair 45–57

B. MONIRA, S.M. ULLAH, A.S. MOLLAH and N. CHOWDHURY / ^{137}Cs-Uptake into Wheat (*Triticum Vulgare*) Plants from Five Representative Soils of Bangladesh 59–69

BRETT L. TILLER, J.D. MARCO and W.H. RICKARD / Metal Concentrations, Foraging Distances, and Fledging Success of Great Blue Herons Nesting along the Hanford Reach of the Columbia River 71–79

ANNE THIMONIER, MARIA SCHMITT, PETER WALDNER and BEAT RIHM / Atmospheric Deposition on Swiss Long-Term Forest Ecosystem Research (LWF) Plots 81–118

F. SEZER TURALIOĞLU / An Assessment on Variation of Sulphur Dioxide and Particulate Matter in Erzurum (Turkey) 119–130

ANNA RINGVALL and NICHOLAS KRUYS / Sampling of Sparse Species with Probability Proportional to Prediction 131–146

ADAM PROKOPOWICZ and WOJCIECH MNISZEK / Mercury Vapor Determination in Hospitals 147–154

BING-MU HSU, NAN-MIN WU, HUNG-DER JANG, FENG-CHENG SHIH, MIN-TAO WAN and CHIEN-MIN KUNG / Using the Flow Cytometry to Quantify the *Giardia* Cysts and Cryptosporidium Oocysts in Water Samples 155–162

ADNAN M. MASSADEH, FERAS Q. ALALI and QASEM M. JARADAT / Determination of Cadmium and Lead in Different Cigarette Brands in Jordan 163–170

A.V. HALLARE, R. PAGULAYAN, N. LACDAN, H.-R. KÖHLER and R. TRIEBSKORN / Assessing Water Quality in a Tropical Lake Using

Biomarkers in Zebrafish Embryos: Developmental Toxicity and Stress Protein Responses 171–187

ALICIA PALACIOS-ORUETA, EMILIO CHUVIECO, ALEXANDER PARRA and CÉSAR CARMONA-MORENO / Biomass Burning Emissions: A Review of Models Using Remote-Sensing Data 189–209

ESRA ILHAN SUNGUR and AYSIN COTUK / Characterization of Sulfate Reducing Bacteria Isolated from Cooling Towers 211–219

IN S. KIM and WOOSHIN PARK / Respirometric Monitoring for the Determination of Effective Height and Reaction Rate Constant in Up-Flow Autotrophic Denitrification Reactor Packed with Sulfur 221–234

NIVES ŠTAMBUK-GILJANOVIĆ / The Quality of Water Resources in Dalmatia 235–268

K. MADHAVI LATHA and K.V.S. BADARINATH / Factors influencing Aerosol Characteristics over Urban Environment 269–280

JEONG SOON LEE, YOUNG J. KIM, BONGJAE KUK, ANDREAS GEYER and ULRICH PLATT / Simultaneous Measurements of Atmospheric Pollutants and Visibility with a Long-Path DOAS System in Urban Areas 281–293

N. RAMAIAH, VRUSHALI KOLHE and A. SADHASIVAN / Quantitative Analyses of Pollution-Indicator and Pathogenic Bacteria in Mumbai Waters from Ballast Water Exchange Perspective 295–308

S.J. HAMILTON and K.J. BUHL / Selenium in the Blackfoot, Salt, and Bear River Watersheds 309–339

RAFAL KUCHARSKI, URSZULA ZIELONKA, ALEKSANDRA SAS-NOWOSIELSKA, J. MICHAEL KUPERBERG, ADAM WORSZTYNOWICZ and JERZY SZDZUJ / A Method of Mercury Removal from Topsoil Using Low-Thermal Application 341–351

J.M. GUERRA-GARCÍA and M.S. KOONJUL / *Metaprotella Sandalensis* (Crustacea: Amphipoda: Caprellidae): A Bioindicator of Nutrient Enrichment on Coral Reefs? 353–367

SHENG YUE and MICHIO HASHINO / Statistical Interpretation of the Impact of Forest Growth on Streamflow of the Sameura Basin, Japan 369–384

MSAFIRI M. JACKSON / Roadside Concentration of Gaseous and Particulate Matter Pollutants and Risk Assessment in Dar-Es-Salaam, Tanzania 385–407

PARICHART VISUTHISMAJARN, BANJONG VITAYAVIRASUK, NIPA LEERAPHANTE and MONTE KIETPAWPAN / Ecological Risk Assessment of Abandoned Shrimp Ponds in Southern Thailand 409–418

PAUL F. HUDAK / Effect of Setback Distance on Ability of Gravel Trenches to Intercept Contaminated Groundwater 419–423

P.K. GUPTA and A.P. SINGH / Disaster Management for Nandira Watershed District Angul (Orissa) India, Using Temporal Remote Sensing Data and Gis 425–436

TEMİR ALİ DEMİR, TAMER AKAR, FAHRETTİN AKYÜZ, BURHANETTİN IŞIKLI and GÜNGÖR KANBAK / Nickel and Cadmium Concentrations in Plasma and Na^+/K^+ ATPase Activities in Erythrocyte Membranes of the People Exposed to Cement Dust Emissions 437–444

ROSSELLA BRIANCESCO and LUCIA BONADONNA / An Italian Study on *Cryptosporidium* and *Giardia* in Wastewater, Fresh Water and Treated Water 445–457

Author Index 459–460
